REMARKS

This Amendment is in response to the Office Action dated November 3, 2005.

Each issue in the action is discussed below.

Drawings

The drawings were objected to as failing to comply with 37 CFR §1.84(p)(4) because reference character "16" has been used to designate both a receptacle support and marker in figure 2. The drawings were also objected to as failing to comply with 37 CFR §1.84(p)(5) because they do not include reference sign "20", as mentioned in the Specification.

In response, Applicant has amended figure 2 to correct the objectionable material. A Replacement Sheet incorporating the changes and an Annotated Sheet showing the changes are being filed herewith. The changes to the figure are circled on the Annotated Sheet.

Allowable Subject Matter

The allowance of claims 1-35 is respectfully acknowledged.

Miscellaneous

Claim 17 has been amended to correct a minor error.
